## Wiha SoftFinish® electric slimFix.

Easy to handle for electrical applications with particularly slim blade.

### Wiha SoftFinish® electric slimFix.

- Protective insulation is completely integrated in the front area of the blade
- Particularly slim diameter of 3,8 mm allows easy access to low lying fastening elements or spring terminals
- Individually tested in water bath at 10,000 Volts according to IEC 60900:2004
- Safe working on live parts up to 1000 V AC or 1500 V DC
- Awarded the GS symbol for tested safety
- Ergonomic handle geometry with SoftFinish® surface guarantees highest levels of comfort
- Skin-friendly soft zone in the upper handle for effortlessly achieving required torque

Available as of  
**January 25, 2010**

SoftFinish® electric slimFix slotted screwdriver.  
Insulation 1000 V AC, VDE-tested and with GS mark.

Blade: High quality chrome-vanadium-molybdenum steel, through hardened, black finish. The integrated protective insulation is directly moulded onto the blade and completely integrated in front area.

Handle: Wiha SoftFinish® electric multi-component handle with roll-off protection.

Standards: DIN 7437, DIN 5264, DIN ISO 2380. Manufactured acc. to IEC 60900:2004.

Application: For all work on or around electrical components up to 1000 V AC.

Extra: The particularly slim diameter of the blade with integrated protective insulation enables low lying fastening elements and spring terminals to be reached and operated easily.
