

SE110

Crimping Tool for Non-insulated Terminal

Specification		
Capacity		2.5 / 4.0 / 6.0 mm ²
Range of application		Non-insulated terminal
Crimping type		Indent crimping
Steel material		CRV
Handle material		PC
Hardness	Crimping arm	40-45HRC
	Crimping jaw	40-50HRC
Rust protection surface		Yes
With ratchet device		Convenient Operation
Life time		≥ 30,000 times
Length		Approx. 230mm
Weight		Approx. 0.6kg
Package		Blister card

- The components of the ratchet crimping tool are made of special steel.
- Designed according to human factors engineering, it can save 50% energy when crimping.
- Precise crimping die sets and integral lock with self releasing mechanism ensures high-quality crimping effect after crimping repeatedly.
- Due to best handle grasping position, light, compact structure and handle design ensure perfect crimping effect.
